

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

In compliance with the provisions of Joint Resolution No. 7, approved March 6, 1869, it was determined on the 25th of

March, to purchase State Bonds to the amount of \$300,000. Not being able to secure any considerable amount of the first maturing six per cent. Bonds of the State, the amount stated of War Loan Bonds was drawn on April 1st, for payment July 1st, 1869, and on the 25th of September following, it was decided to retire the balance of the War Loan Bonds, amounting to \$590,500. In pursuance of this decision, the Bonds were drawn on October 1st, for payment January 1st, 1870. Of the Bonds drawn for payment July 1st, there are still outstanding \$41,000 which have not been presented for payment. Of the Bonds last drawn, \$39,000 have been presented and paid, together with the accrued interest.

The Specific Tax due from the First National Bank of Owosso, amounting to five hundred dollars, which had been collected by the Sheriff of Shiawassee county, on a warrant issued by the Auditor General, was refunded to said Bank, the Supreme Court having decided the law levying the same (Act 122, Laws of 1867) to be unconstitutional. Prior to this decision there had been paid into the treasury \$3,265 by National Banks, leaving after the payment above mentioned, a balance of \$2,765, as the amount of Specific Tax received from the National Banks during the fiscal year.

The claim of the State against the Phoenix Bank of New York has been adjusted by the payment in September of \$10,000, making with the payment of \$28,772 04 in the year 1865, a total of \$38,772 04. The amount of the allowance to the Bank by the Board of State Auditors in December, 1854, was \$35,603 74.

The amount of the last outstanding Patriotic Loan Certificate, issued in the spring of 1861, was paid in December last, the original certificate having been lost by its holder, of which satisfactory proof was furnished, and a bond filed, securing the State against its future presentation for payment.

Swamp Land Warrants have been issued on contracts approved since the spring of 1867, and still unlocated, to the

amount of \$293,492 13. The amount of Swamp Land Warrants issued during the fiscal year is \$538,000 42.
